ISA MAMMADLI

Front End Developer

+(994 51) 916 01 19 isamammadlee@gmail.com Baku, Azerbaijan linkedin.com/in/isa-məmmədli-4411aa285

SUMMARY

Front-end developer with 2+ years of hands-on experience building responsive, user-centric web and mobile applications with React, React Native, TypeScript and TailwindCSS. Delivered measurable results: a redesigned onboarding flow that boosted daily registrations by 111%. Independently built a restaurant management system end to end — project architecture, database and code — and used AI tools to refine and accelerate delivery. Skilled at working with artificial intelligence as part of the development process to ship quality solutions faster. Growing into a full-stack developer with Node.js, Express.js and MongoDB. Quick to learn, collaborative, and experienced with Git, GitHub and Agile teams.

EDUCATION

Azerbaijan State University of Economics | 2022 – 2026

Industrial Engineering, Bachelor's degree

Introduction to industrial engineering; Engineering and computer graphics; Linear algebra and analytic geometry; Ergonomics and technical design; Mathematical analysis

WORK EXPERIENCE

NextClass | 11.2025 – Present

Front End Developer

Key areas of responsibility

- Started with an exam website, where I learned and implemented real-world front-end features for user flows and assessments
- Applied modern React ecosystem patterns with TanStack Query and routing to enhance data fetching, caching, and navigation flows
- Independently built a restaurant management system as Front End Developer: set up the project architecture (folder structure, database), wrote the code, and used AI tools to refine and optimise it — delivered in a short timeframe

Key projects: Exam website · Restaurant management system (architecture, database, front end; AI-assisted)

Opportuland | 09.2024 – 02.2026

Front End Developer 12.2024 – 02.2026

Front End Developer Intern 09.2024 – 12.2024

Key areas of responsibility

- Built cross-platform mobile apps with React Native & Expo, and developed scalable web solutions with the MERN stack
- Designed a modular, step-based onboarding flow, boosting daily registrations by 111%
- Enhanced company's digital presence by co-creating a website and mobile app
- Collaborated in a remote Agile team, gaining hands-on experience in scalable front-end architectures
- As intern, contributed to responsive web applications with React and Tailwind CSS, gaining foundational experience in React Native and JavaScript
- Learned version control with Git and took part in daily stand-ups in an agile team

Key projects: Step-based onboarding flow (+111% daily registrations) · Company website · Mobile app (React Native & Expo)

WORK EXPERIENCE (continued)

Codelandia | 07.2025 – 09.2025

Front End Developer

Key areas of responsibility

- Developing and maintaining high-performance, user-centric web applications using React.js, SCSS, and modern JavaScript (ES6+)
- Translating complex UI/UX designs into pixel-perfect, interactive user interfaces using advanced SCSS and CSS methodologies
- Architecting reusable, scalable, and efficient front-end components to accelerate the software development process
- Collaborating closely with design and back-end teams to create functional, seamless, and engaging digital experiences

Key technologies: React.js · SCSS · JavaScript (ES6+)

TECHNICAL SKILLS

- JavaScript
- TypeScript
- React & React Native
- TailwindCSS
- SCSS
- TanStack Query
- Node.js
- MongoDB
- Git
- C++
- AI-assisted development

LANGUAGES

- **Azerbaijani:** Native
- **Turkish:** Professional
- **English:** Pre-intermediate

PERSONAL QUALITIES

- Fast learner, eager to grow
- Attention to detail, clean-code mindset
- Team player in Agile environments
- Adapts quickly to new technologies
- Responsible and result-oriented
- Logical, analytical thinking
- Proactive and self-driven
